ZiggRoll V4

Install & Activation Guide

DTF roll printing for Epson · AcroRIP 11 (or lower) on L18050 & L8050 · instant self-serve licence from your account

Read first. ZiggRoll V4 is one licence for one PC, non-transferable. The licence locks to your computer's hardware. If you later change the PC or its hard disk, the same licence will not work, so install and activate on the computer you will actually use.

1 Download & prepare

1. **Download the ZiggRoll V4 software from your order page / purchase email. Extract with 7-Zip (archive password `Ziggroll@123`).**
2. **In C: drive, open `C:\Program Files (x86)` and create a folder named `HSoft`. Exclude it from Windows Defender / antivirus. Extract the files into `HSoft`, then install Visual C++.**

2 Install ZiggRoll V4

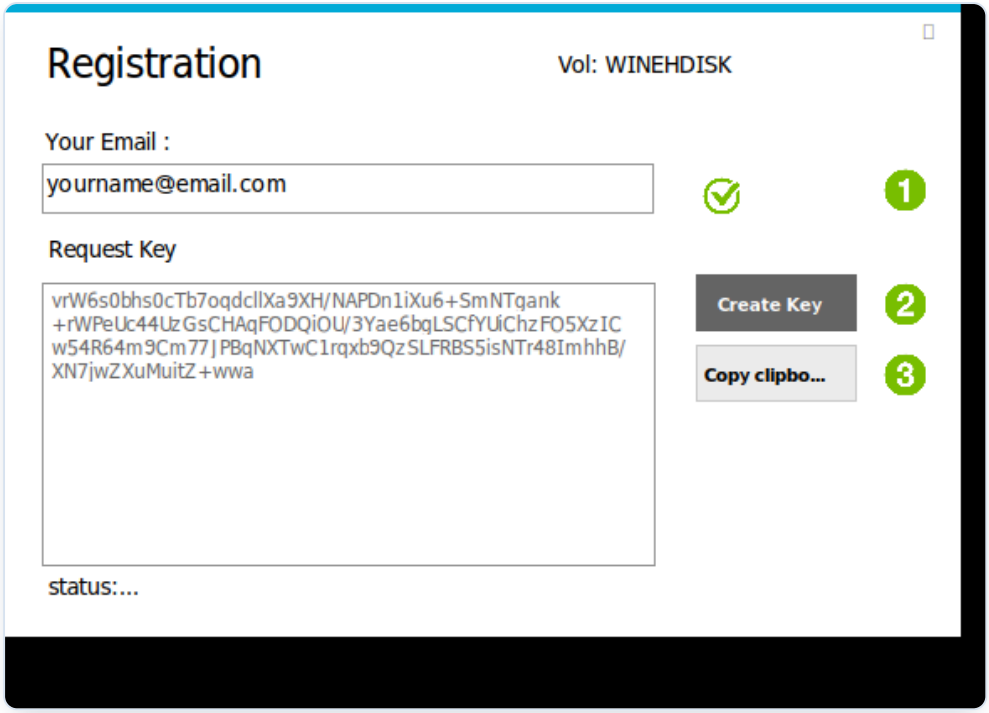

1. **Run the ZiggRoll V4 setup and click Next through the wizard to finish.**

ZiggRoll V4 Setup Wizard — click Next to install

3 Create your request file

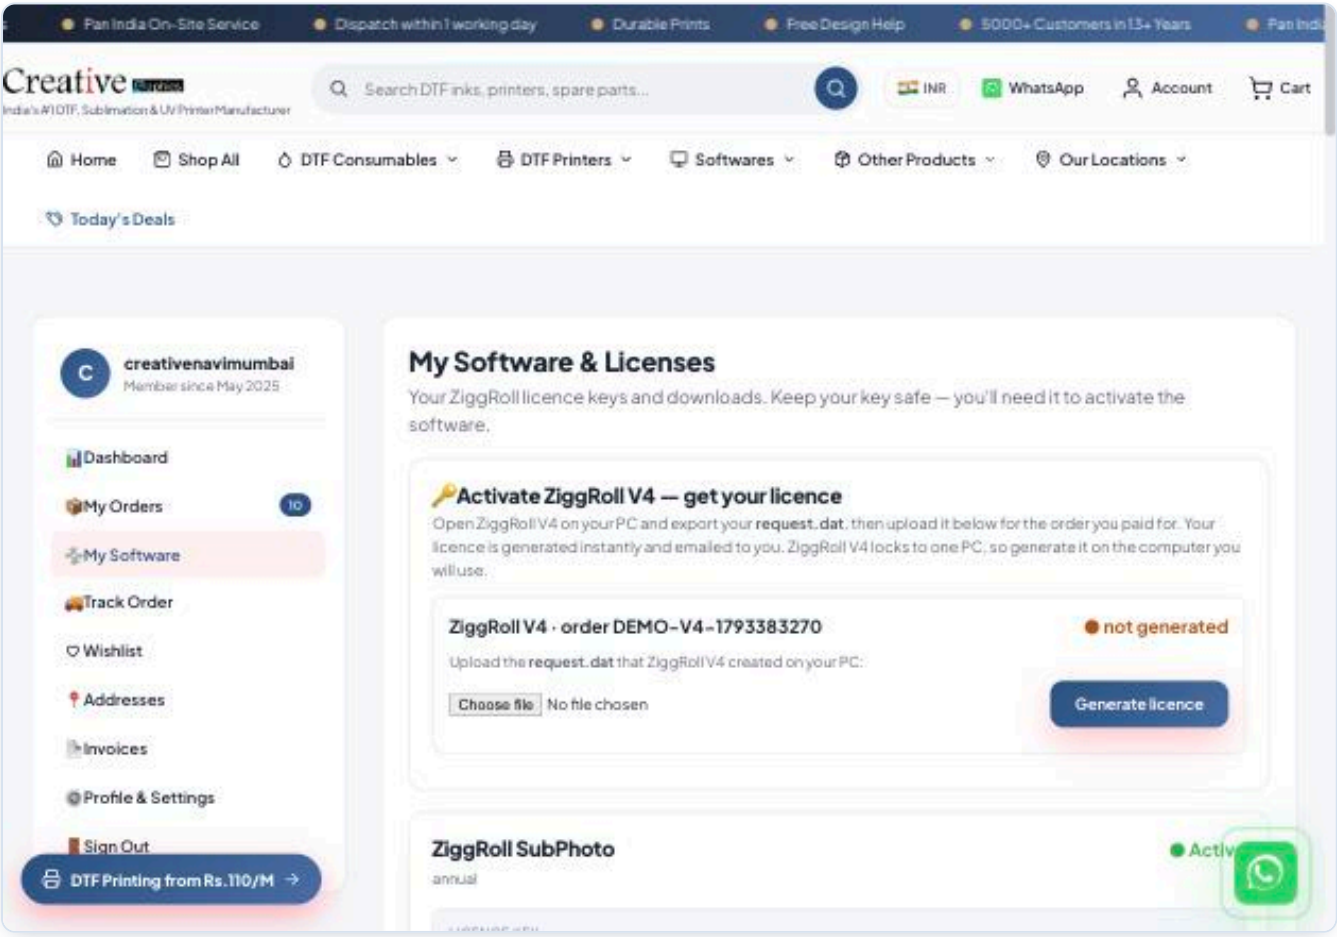

1. **In the install folder, run Registration. Type your email, click Create Key (2), then Copy clipboard (3). A `request.dat` file is created — it is your PC's fingerprint.**

Registration — enter email, press Create Key to generate request.dat

4 Upload request.dat in your account

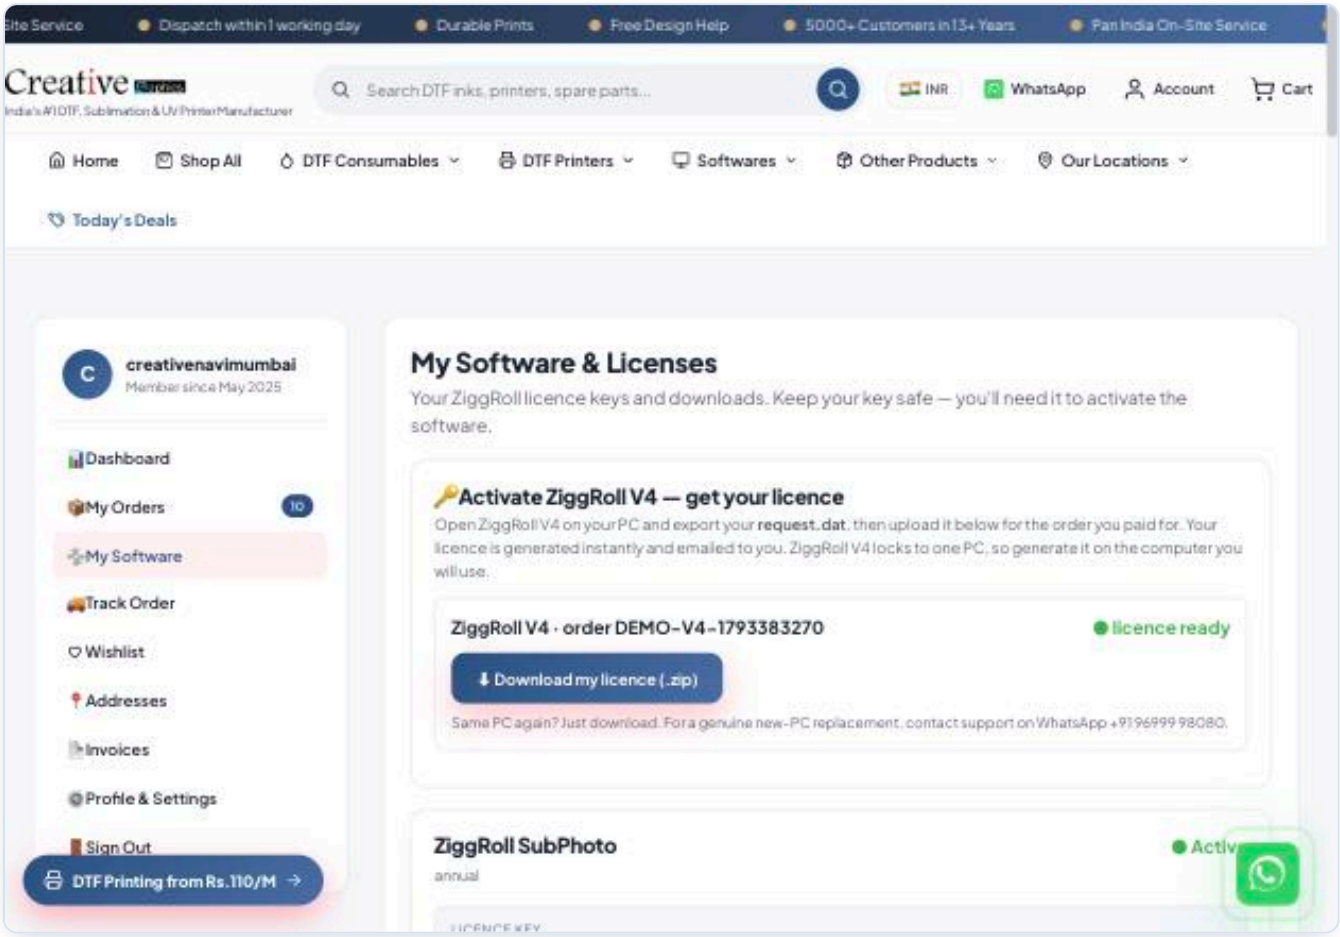

1. **Log in to dtgdtf.com/account (or ziggroll.com/account) with your purchase email. Open My Software & Licenses in the sidebar.**
2. **In Activate ZiggRoll V4, find your order, click Choose file, select your `request.dat`, and press Generate licence.**

My Software & Licenses — upload your request.dat here and click Generate licence

5 Download your licence

1. **Your licence is generated instantly. Click Download my licence (.zip), a copy is also emailed to you.**

Licence ready — click Download my licence (.zip)

6 Apply the licence

1. **Unzip the licence — it has four files:**

`license.dll` `diction.dll` `data.db` `request.dat`

2. **Copy all four into your ZiggRoll V4 install folder (inside `HSoft\ZiggRoll 4`), overwrite if asked.**

7 Open ZiggRoll V4 — activated

1. **Open ZiggRoll V4. The top bar shows License to: your name and the software is ready to print.**

ZiggRoll V4 running, activated ("License to: ..." top-centre)

The licence is locked to this PC. A different computer is blocked. For a genuine hardware replacement, contact support on WhatsApp +91 96999 98080.
